

# GROUNDING Exothermic welding

The solutions of ARGOSWELT exothermic welding, from ARGOS range, allow you to connect different types of conductors between each other in a sure, reliable, simple and fast way ( tape, round, earth rod, rebar, satainless steel).

The conductors are welded all together in order to flow the current in a perfect continuous way with a stronger and resitant connection to the corrosion regarding to a mechanical coupling.

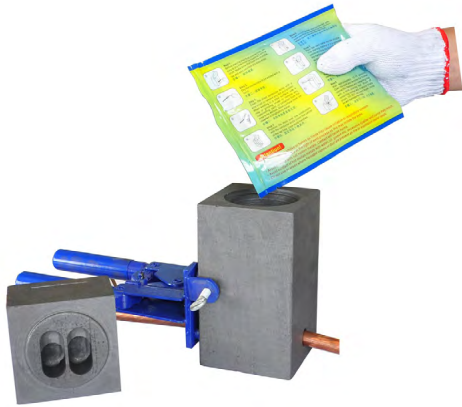

## WELDING TYPES

BAR TO BAR					BAR TO EARTH ROD		BAR TO CABLE		
BB1	BB3	BB7	BB14	BB41	BR1	BR2	CB1	CB4	CB5
CABLE TO CABLE					CABLE TO EARTH ROD			BAR TO STEEL	
CC1	CC2	CC4	CC7	CC14	CR1	CR2	CR3	BS1	BS2
CABLE TO REBAR					CABLE TO STEEL SURFACE				
CRE1	CRE2	CRE3	CRE6	CRE17	CS1	CS2	CS3	CS7	CS8
CABLE TO STAINLESS									
CS9	CS25	CS27							

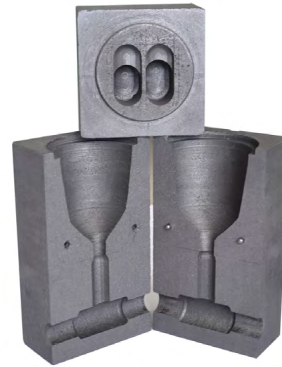

**COMPONENTS**

**Weld Powder**

**Molds**

**Handle Clamp**

**Electronic Ignition**

**Weld Powder**
